### **First ... An overview of AutoXten**

AutoXTen was formed by Scott Chandler and Brent Robinson. It is Always a good sign when a Company announces its Ownership. On a presentation call Mr. Chandler even gave his address. He is a well established business owner in Alabama.

Brent and Scott have been successful and respected in the network marketing industry. Scott and Brent who already had a relationship with different websites decided to launch AutoXTen.

The model AutoXTen is based upon is a brilliant concept. It's all starts with a one time out of pocket cost of \$10. The low cost means anyone can participate. They use a 4 by 4 matrix with two stages. When the first

stage is complete you will have earned over \$11,000 and when the second stage is complete you will have earned almost \$200,000.

Of course the ability to spend \$10 and possibly earn \$200,000 is very attractive and in a world of risk versus

reward that's a pretty phenomenal ratio. Added to that is no requirement to personally sponsor anyone to collect that income. That in itself is phenomenal for the everyday person struggling in today's economy, but it is network marketing and you do also get rewarded for your efforts.

By referring other people to the program you receive a %50 matching bonus for every person you sponsor and an additional %50 for every second level person (people sponsored by the people you sponsored). So if you sponsor just one person and they make \$200,000 you receive an additional \$100,000.

AutoXTen made their first launch announcement on June 13th and in less than 2 days they had over 11,000 people pre-registered members. With those kinds of numbers it can be expected that AutoXTen will very rapidly reach the 1,000,000 member mark.

The potential earnings above are based on each of your personally sponsored people filling both their stage 1 and stage 2 matrix. So to be more realistic, 1/2 each number above and then 1/2 it again...

If each person you personally sponsor makes an avg. of 4 sales each, you can multiply each number above by 4...yeah...pretty crazy numbers I know but imagine if you were only able to receive 10% of that!
