Traffic Exchange SOS – New and Improved and Updated
2013

Congratulations!

FREE! You Now Own Resell And Giveaway Rights To This Report

Greetings!

By owning resell and giveaway rights, you may freely distribute this report to anyone you wish, resell it for any price and keep 100% of the profits, or use it as incentive to build your mailing list. The choice is yours.

The only restriction is that you cannot modify this document in any way without permission from the author.

Enjoy!

***Hot Tip:* If you would like to learn how to make this report your 24/7 "Digital Sales Machine" then be sure to read the [last page](#) for full details**

Chapter One

Do You Have the Red Eye Blues?

While the purpose of this report is to enhance your understanding of how to become profitable online, I wanted to give you a little background about myself first.

Why? Well...because it seems there are so called “experts” in every possible nook and cranny online.

And unfortunately many of these so called experts pump out misinformation like it’s going out of style.

You don’t need that kind of “guidance” at all.

I’d like to help you experience the joy of online success and being able to do with your day whatever you please...which is EXACTLY my reason for putting this report together for you.

So with that...here’s a little inside info on me, Paula Zuehlke, owner of HitSafari.com, one of the premier Traffic Exchanges online today.

I have been marketing online full time for over 7 years now.

Like many, I first decided to try my hand with an online business to spend more time with my family.

When I was starting out, the only thing I was successful at was spinning my wheels, throwing money away, and spending hours and hours every day (and night) glued to my PC.

All with nothing to show for it but red eyes and a lighter pocketbook.

That was until I found Traffic Exchanges. My online business changed almost overnight!

I was instantly addicted to Exchanges. It was a rush to be able to put my web sites online and drive traffic to them instantaneously.

I quickly learned that it took a special approach to be profitable, and I began to develop my own system for success with these Exchanges which brings me back to the purpose of this report.

If you want to become profitable online, while avoiding hyped up junk offers, then I can, and will, help you.

Stick around because you’re about to discover how to find your own online success, using Traffic Exchanges to skyrocket your income.

Chapter Two

It's All in The Plan

John Christian Bovee, an American author and lawyer in the early 1900's once said, "The method of the enterprising is to plan with audacity and execute with vigor."

We'll forgive Mr. Boyee for being a lawyer since his statement was suited so perfectly for our business.

The folks that are successful...the ones that really knock the ball out of the park are the ones that come with a plan and follow through.

Ok, now quit yawning ;-)

I know everyone hates to hear this because they want the latest thingamajig that does all kinds of fancy this, that, and whatever.

But, I told you that I want to help you succeed online. And if you're going to succeed then you need a touch of the cold dose of reality.

So...how is it that you plan for success with Traffic Exchanges? Well, you need to develop a **systematized approach** to them and you need **a plan** that virtually guarantees your success.

The plan that I want to share with you is based on the proverbial three legged stool which, as we all know, is very unsuccessful in obtaining it's goal of holding you up if one of it's legs is missing or damaged.

The three legs, or things that you **MUST** do, to guarantee your success with Traffic Exchanges are:

- 1.** Have your own website, preferably an attention-getting, targeted squeeze page.
- 2.** Build your own list of opt-in leads or subscribers.
- 3.** Turn those subscribers into paying customers with the use of an autoresponder.

Eliminate or shortcut any of those "legs" and you will significantly decrease your chances of success with Traffic Exchanges.

Chapter 3

Grandma Can Teach us a Few Things

Katherine Barchetti, a platinum blond grandma, and former clothing retailer in Pittsburgh, PA, attained notoriety for making the big retailers look like clowns when she out-marketed and outsold them all.

She once said, "Make a customer, not a sale". So true Grandma Barchetti...so true.

This is EXACTLY how you should be thinking about your Internet Business...and you do this by:

Using the right kind of web site on the Traffic Exchanges.

When marketing online you have a very limited time to capture the visitor's attention in order to make a sale.

With Traffic Exchanges you have even less time...usually 10 seconds or less to capture the attention. Most exchanges have gone to 6 seconds!

So, now listen to this carefully...

You should **NOT** be using Traffic Exchanges to make sales.

"Wait a minute! Isn't that what this online thing is all about? Making money? How can I do that if I don't make any sales?"

Yes, you're right.. our end goal is to make money but it is more than a one step process.

Again,you should **NOT** be using Traffic Exchanges to grab the sale, rather you should be using them to grab the visitor's email address.

Then you'll follow up with them with your autoresponder, typically in a series that is about 7-10 messages.

A simple, clean, fast loading landing page with a compelling headline, and even more compelling bullet points highlighting the benefits of your product/service is often the most successful type of web page for this type of marketing.

These pages are called **squeeze pages** when they also include a simple form for visitors to your page to enter their name and email address.

When those folks enter that information into your form, they go into your autoresponder and become a member of your list.

And your list is your own private “collection” of customers.

But even more important than creating a list of customers is properly maintaining that list.

How do we do that?

By getting to know them and by letting them get to know you. Say you were in the market for how-to information on growing flowers. Which site is likely to catch your attention first.

The one with a generic ebook on gardening with a few bullet points and an order here button

or

A site, a squeeze page, with a friendly face, some information on that face's experience with growing flowers and an offer to subscribe to a free newsletter.

I personally think, and experience has shown, that the second site wins hands down.

Now if that site were mine.. what just happened?

I just met someone who was interested in my niche and I did this by letting them know something about myself.

What I looked like, with a picture, what my interests were, why I was qualified to give advice on that interest and hopefully even a little about my personality came through in my writing.

As my list grows I will have a group of subscribers and customers that I know well and that know me. I will be able to recommend products to them based on my experience, and knowledge of the product, and also on what I've determined their likes and dislikes to be.

As time passes I'll also be able to channel my 'flower loving list' into smaller, more targeted groups. Maybe rose lovers, or gardening without pesticides or even flower arranging.

The saying is true that it is easier to recommend something to a friend then it is to sell something to a stranger.

When managed properly, the members of your list can equate to significant long term profits for you.

This is completely consistent with Grandma Barchetti's statement above...because you'd much rather have someone join your list than just get one quick sale from them.

The obvious choice for most people when they want a unique splash page is to hire a professional. It can easily cost \$50 for a professionally created squeeze page, that is if you can find a designer you like and who also has the time

No doubt it will be worth that investment, but when you want more than one for variety or testing purposes the cost can quickly add up.

There is one simple solution.. Create your own!

Now before you think that is something you could never possibly do, let me introduce you to [AdKreator](#), a program that can make anyone, even you, look like a professional designer.

AdKreator is filled with professional templates, loaded with clip art of every kind and created to be so user friendly that even if you're a complete beginner you can design custom and effective squeeze pages.. as well as splash pages, banners, login offers, buttons!

Plus.. a huge benefit, ALL your pages are hosted by [AdKreator](#)! No hosting costs! Awesome!

I will not even attempt to detail all the incredible and unique features that offers.. would take up far too much space! You simply need to experience it for yourself.

Use program provided pages or create your own but make no mistake, using squeeze pages for your Traffic Exchange advertising will exponentially boost your profits.

Chapter 4

It's Not a Vanity Thing

Author Robert Zend once said, "People have one thing in common: they are all different."

German philosopher Friedrich Nietzsche stated, "At bottom every man knows well enough that he is a unique being, only once on this earth; and by no extraordinary chance will such a marvelously picturesque piece of diversity in unity as he is, ever be put together a second time."

And Coco Chanel, after whom the perfume was named, once said, "In order to be irreplaceable one must always be different."

Is it vanity to want to stick out, stand out, and be unique?

Not by a long shot! In fact, it's essential to your online success, especially with regards to your Traffic Exchange success.

You see...many folks, especially when just starting out, have a tendency to throw their affiliate pages out to the Exchanges.

Now, think about this for one second...

If there are just 10 other people like you (very small number for an affiliate program) using that same affiliate page, then a page that looks EXACTLY like yours is going to be shown to surfers many times as they surf.

People are either going to join in on one of your competitors affiliate pages, or they're going to become immune to any power that affiliate page might once have had.

So, the answer?

Be unique. You can still promote that affiliate program (or any other program for that matter) quite successfully...

But don't use the affiliate page on the Traffic Exchanges.

Use a unique squeeze page which captures the visitor's information and channel them into an autoresponder. Then drive them back to the affiliate

page. You'll be much more likely to generate that affiliate sale, and you'll be able to establish a relationship with them, as we mentioned in the last chapter, and sell to them again.

A program that does an outstanding job of explaining the ins and outs of Traffic Exchanges, including using unique squeeze pages is [TeProfits](#). TEP is a program that I am personally a

member of and highly recommend.

Besides an abundance of quality information

on Traffic Exchanges and how to make them profitable, TEP also has a great system built in that enables you to easily build your own list.

With your TEP membership you receive many highly targeted lead captures and squeeze pages (**leg number one**). Some can easily be personalized with your own picture.

When a prospect provides their name and email address on your squeeze page, they are subscribing to your list , (**leg number two**) and become a lead for your business.

Your autoresponder (**leg number three**) delivers a series of emails that have been created FOR you. You can also personalize these emails to promote any affiliate program or business to your list of leads.

There's no need to worry about having to create and host your own splash pages.. you don't have to worry about how to get other traffic exchange members to want to opt in to your list.

You don't even have to be concerned with learning to set up your own autoresponder. TEProfits does this all for you with plug and play simplicity. Once you join TEProfits, in literally no time at all you can have all three legs that will guarantee your success with Traffic Exchanges firmly in place.

This is very exciting.. don't you think? ... and if this was all TE Profits did it would be an extremely valuable.. even essential, program for you to be a part of.

But.. it does more!

What more could it possibly do, you ask?

TEProfits teaches you how to get paid for your Traffic Exchange marketing. In effect, you get paid while surfing.

This is up front income in ADDITION to whatever primary business you are building. The up front income from your Traffic Exchange system is all gravy... and who doesn't agree the gravy is the best part!

AND... not only will you learn the TEProfits secrets on getting paid to surf while building your

business, you will also learn a strategy used by the Big Players to fund any cost you may have associated with your advertising... up front... immediately!

The beauty of TEProfits is that you can add an incredible Big Player "funded proposal" technique to your Traffic Exchange Success.

You can start getting results immediately with effective marketing in traffic exchanges using the [TeProfits](#) marketing system. You also receive professional training and a step by step plan to turn your surfing into positive cash flow and ever-increasing profits.

Now we're REALLY into the nuts and bolts of "skyrocketing your income by unleashing the power of Traffic Exchanges!"

Chapter 5

A Virus You Can Enjoy!

When most people hear you have a virus, they ask you not to get too close to them, and are apt to shy away

They picture sneezes, coughs, runny noses, and congestion.

But there is a virus that will make you much more appealing to everyone else, because this kind of virus can stuff your pockets full of cash:)

The virus I speak of is "Viral Marketing."

As an Exchange user you have the unique opportunity to utilize this type of marketing in not just 1...but 2 profitable ways. With both strategies you'll use other peoples' time, resources, and advertising dollars to send targeted visitors to your site.

So, how exactly do you leverage other people to make that happen?

Well, with most Traffic Exchanges you can earn credits every time someone you refer to that Exchange surfs. This means more views of your own web pages without any extra effort on your part. And the larger the group of people under you that you referred... All the more views of YOUR web page.

Now THAT's leverage...and viral marketing in motion.

Ok.. now let's take this one step farther and really put this plan into high gear.

There are programs online that you can join called Downline Builders. A DLB is a program that has several different programs, including Traffic Exchanges, under "one roof" so to speak. A kind of one stop shopping for your Success Plan needs. :)

When you join a DLB, you then have the option to enter your member id's for every program included. Then, when you refer other people to the same DLB they will join any program that they are not already a member of through YOUR referral link.. putting them in your downline.

Now, instead of advertising several Traffic Exchange programs to gain referrals and extra traffic, you have **ONE SITE** to promote that will bring referrals to **ALL** the Traffic Exchanges.

Is that cool or what?

There are several DLB programs available but here's what you want to look for.

- ➔ .A manageable list of quality Traffic Exchanges
- ➔ A selection of other advertising programs such as list builders

- A solid recommendation of a good host, auto-responder and perhaps one or two other affiliate programs
- The ability to promote your own programs to your referrals.

You may recognize [HitSafari](#) as a top ranked Traffic Exchange, and it is... but what you might not know is that it also has a Downline Builder as well.

Many Traffic Exchanges offer Downline Builders which include a few to several of their favorite Traffic Exchanges.. I'm sure you've seen some.

HitSafari has taken that idea, kicked it up a notch and developed it into something truly unique.

There are Traffic Exchanges, Safelists and List Building programs which will give a solid advertising foundation...

... but there's more.

HitSafari also allows you to build a downline in quality resources that you need to form a solid foundation for your business. Hosting options, Auto Responders, training centers, rotators and more.

Now while that all sounds great, they've taken it even further.

As a member of HitSafari you can add YOUR personal programs to the Downline Builder.. up to 5 of them! Your referrals not only join the existing programs but are introduced to whatever program that you wish to promote to them. Very cool, don't you think?

By joining a quality Downline Builder, such as [HitSafari](#), your sales and profits will begin to grow, at multiple levels, and all with less effort.

Now that's a virus you can get into! :)

Chapter 6

Can a Pig Make You Wealthy?

Linda Chandler, an American businesswoman, executive and entrepreneur, once said, "Think P.I.G. - that's my motto. P stands for Persistence, I stands for Integrity, and G stands for Guts. These are the ingredients for a successful business and a successful life."

So a PIG can indeed make you wealthy :)

Certainly all the values are significant and applicable, but lets talk about Persistence.

You'll see in a moment just how critical persistence is when it comes to your success with Exchanges.

In order to get the most out of Traffic Exchanges you must be persistent.

You must set aside a specific amount of time each day that is dedicated to surfing the Traffic Exchanges.

You'll want to literally schedule your surfing times, and you'll want to organize your schedule by exchange. (We'll cover some great organizational tips in the next chapter)

How you develop your surfing schedule is up to you. You'll need to work within the confines of your daily routine.

For example, if you have all day at home you may wish to surf 1-2 hours in the morning, 1-2 hours in the afternoon, and 1-2 hours at night, with breaks in between to handle other business tasks, and to give yourself a well deserved rest.

But, if you need to go into the office or head off to work every day, then you'll need to work it so that it fits your life and doesn't wear you out.

Perhaps a half hour before work, and a couple of hours after work each day.

Another way to maximize your time you have for surfing is to pay attention to any promotions being offered by the exchanges. This is one very important reason to be sure you read the newsletters that each exchange sends you.

While some exchanges send what seems to be an excessive amount, the majority are helping you out by making you aware of contests and promotions that will put extra credits into your account.

There is one particular system that you will want to be sure and take advantage of. Three top ranked exchanges, [Soaring4Traffic](#), [RealHitz4U](#) and [HitSafari](#) have joined together to form [PowerSurfCentral](#).

PowerSurfCentral was designed to reward it's members abundantly and consistently for their loyalty. Credits, banner impressions and text links are given away on a daily, weekly and monthly basis just for surfing a minimum of 100 sites!

Beyond the rewards you get for surfing PowerSurfCentral also has PowerPoints. When you surf a minimum of 200 a day, not only do you receive your normal PSC rewards, you also receive Power Points.

Power Points accumulate and can be traded for credits, banner impressions, text links and even Pro upgrades!

Once you complete the easy setup process you'll be on your way to earning your share of the millions of credits awarded by PowerSurfCentral.. Check it out now right here!

[PowerSurfCentral](#)

Just keep in mind that the key to making the best use of Traffic Exchanges... the CRITICAL point here... Is to surf every day, without fail. This is persistence. It may take a little while at first, but you'll soon start to see activity.

You'll start to see people joining under you and you'll start to notice sales hitting your accounts.

As time goes on, and if you stick with it...if you stay persistent, you will be amazed as you watch these small successes start to snowball!

Chapter 7

Flo Knows Organization

Lawyer, political activist, and speaker Florynce R. Kennedy was once quoted as saying, "Don't agonize, organize".

Too true Flo.

I know that when I am not organized I sometimes will do things haphazardly, and may not even complete certain tasks at all.

This ultimately causes me more grief, as I end up behind in my work, agonizing over what needs to get done.

I'm sure we've all been there at one point or another, but there is a solution to the chaos and agony...

That solution is organization.

Becoming organized will help you with your business, especially when it comes to your use of Traffic Exchanges as you'll find yourself much more efficient...

Spending less time working...and more time making money.

So, the \$100,000 question...how do you organize your surfing?

Here's a really quick and easy to implement technique that will have you humming along faster than you ever thought possible.

Use tabbed browsing to have multiple Exchanges open all at once, and all in the same Internet Window.

Both [Mozilla FireFox](#) and [Chrome](#) include tabbed browsing as features.

You can group the exchanges in a way that makes the most sense to you. Perhaps by the amount of time on the counters, or by the frequency with which you surf.

Once you have a group set up the way you like, be sure and bookmark it so that you can call it up quickly when you begin your next surfing session.

My recommendation would be to bookmark 2 or 3 groups that represent your most used exchanges.. the ones that have given you the best results. While you may belong to many exchanges and surf them all when you have time, you'll want to concentrate your energies on those exchanges that have given you results.

Many times those are exchanges that can be found on the lists that rank exchanges for traffic

[HitSafari.com The Best Manual Traffic Exchange](#)

delivery or results of the list owner... but not always. Those exchanges should definitely be tried, but depending on what you are advertising, you may find your results come from different exchanges.

You only have a certain amount of time.. spreading your time between too many exchanges will only dilute your efforts and cause all of your advertising to become ineffective. Concentrate on your best exchanges and when you have the extra time spend it with the others.. who knows, you might just discover another top producing exchange.

It has to make sense for you and accommodate your own personal style, but the use of the tabbed functionality will allow you to surf and build credits with speed and efficiency.

For real convenience in surfing, I recommend that you join [Soaring4Traffic](#). This is a Traffic Exchange which not only consistently produces great results, but has also added a unique feature called a surfing console.

The surfing console is a great tool that keeps all the exchanges that you are a member of organized and together in one place. When you are a member of the Traffic Exchanges included in their Downline Builder and have entered your ID, those exchanges are automatically included in your console.

PLUS, you can add any other Traffic Exchanges that you want.

You can get all the specifics on the Soaring4Traffic Surf Console in their **Surf Center Guide** and even access a training video through your S4T account, so I won't go into those specifics here but check out the highlights.

- Include any and all Traffic Exchanges that you want
- Easy set up.. enter your ID and click update
- Group exchanges together by ticking the priority box
- One link, that you can bookmark, will open up your console.
- Click the surf link by an exchange and each opens in a new tab.
- Date of last time you logged into each exchange is recorded

Pick up your copy of the Surf Center Guide at [Soaring4Traffic](#).

Bottom line is more sign-ups, more page views, and more money in your pocket. All thanks to a little organization.

Just be sure to view the pages, as you'd like your pages to be viewed as well.

Chapter 8

Are You Feeling Like a Leaky Faucet?

Have you found yourself with extra credits on a particular Exchange and it seems like your page views are drip, drip, dripping like a leaky faucet?

Slow, annoying, and keeping you awake at night?

There's a few things you can do to immediately put those credits to fantastic use.

Try adding more URL's and web pages to that Exchange.

This will give you the opportunity to grow down lines and add profits for different products and services.

Some Exchanges will even allow you to add the same URL more than once...this will certainly increase the number of views for you and start putting those credits to good use.

More page view equates to more sign-ups to your squeeze page and ultimately more money in your pocket :)

Another great utilization of those extra credits is to start offering some of them as rewards and bonuses to people in your down line.

While, this may not do much for you in the short term...

This long term strategy will make for satisfied down line members that start acting like a team. By keeping in contact with your downline members you build relationships with them as well and while it might be against the TOS to blatantly advertise your products to your downline, most Exchanges do not have a problem with you including a signature file.

As your team learns to know you they may very well inquire of you about your sig file and what you are involved with.

Feeling like part of a team will also translate into your downline surfing more, and generating more sign-ups which over the long haul equals more cash for you.

With these techniques you'll find yourself using your credits wisely, and building a long lasting, and solid overall business.

That's how you fix a leaky faucet :)

Chapter 9

As the URL Turns

Are you tired of the manual management of all your URL's in all the Exchanges you participate in?

Does it ever feel like you need a full blown Excel spreadsheet, crafted by an engineer, to manage all these things?

I feel your pain...and have some virtual relief for you right here.

There's a tool in the world of Traffic Exchanges that can simplify your life and maximize your profits.

That tool... a rotator.

A rotator will allow you to add multiple URL's to one site (your rotator page) and will then rotate through all of your sites, as people view them.

This affords you real freedom, because when you make URL changes, like adding or deleting sites, you don't have to log into every Traffic Exchange you participate in. You can simply make the changes one time... all at your rotator page.

Many exchanges actually provide you with a rotator free of charge.

When you use the rotator URL provided by Exchange A in Exchanges B, C, etc, it will rotate the sites that you listed in Exchange A inside a frame that has a referral link for Exchange A.

This not only gives you the advantage of a rotator but builds your downline in Exchange A.

If you prefer a rotator that is exclusive of advertising, you'll want to check out [PagaSwirl](#). PageSwirl is the best rotator service you'll find and even as a free member you have access to a ton of great features.

One thing to make note of - not all Exchanges allow rotators, even from other exchanges, so you'll want to check the rules and Terms of Service for the Exchanges you participate in first.

Chapter 10

Fail to Plan Equals Plan to Fail

One of my favorite motivational authors, and one I'm sure you've at least heard quoted, if not read yourself, is Zig Ziglar.

Zig once said...

"You were born to win, but to be a winner, you must plan to win, prepare to win, and expect to win."

Having a plan is imperative to success.. knowing that plan is well prepared and proven to work will cause your expectations of success to soar.

You will indeed win!

We've covered a lot of ground with this report, my Secrets of Success that when followed through on will optimize your Traffic Exchange advertising and literally skyrocket your income.

Don't be overwhelmed by the amount of information that you just read, it really boils down to this...

You have the plan to success in your hands right here!

When you follow the plan presented in **TE Secrets of Success** your referrals will follow you through the same process and in turn so will their referrals.

Soon you'll see your list and your income begin to skyrocket! It's a fact, proven by those that have gone before you. The plan works, when you work the plan.

Let's look at how that plan works for you.

- You receive the free ebook..
- You re-brand it seeing how doing so can explode your downlines
- You give the ebook away to your subscribers or as a gift to gain new subscribers
- Your referrals, seeing the same great opportunity that you did, follow you through the plan, joining the programs and re-branding the ebook

Bottom line...

Traffic Exchange SOS along with [HitSafari](#) and [TeProfits](#) DOES offer you a plan for success that will work.

[HitSafari.com The Best Manual Traffic Exchange](#)

Guaranteed.

BUT, there's not any plan that will work for you, no matter how good, how widely proven or how many guarantees it has, if YOU do not Work the Plan.

Chapter 11

Grab a Wing (NO, Not a Chicken Wing)!

American trainer and business consultant, Frank C. Bucaro, once said, "Don't wait for someone to take you under their wing. Find a good wing and climb up underneath it."

Frank was right on the money with this little blurb.

As I mentioned earlier, there are many folks out there that proclaim to be able to help you make money and make it fast!

The problem is that while there are some good teachers and some people that really know their thing, there are also a number of marketers that I call "False Profits"...and yes, that pun was intended :)

You see, some people would like you to believe they can take you to the promised land of money, riches, and whatnot.

But often they can only take your money. Because that's all they know how to do.

So, if you're ready to take your life and your business to dizzying new heights...

Then find a good solid wing and climb right on up underneath it. If that happens to be my wing...well, then welcome aboard :)

I'll be happy to assist you with making your online business, and your use of Traffic Exchanges, super profitable :)

Thank you for taking the time to check me out...and for spending some time absorbing some of my tips, techniques, and Traffic Exchange success strategies.

I want to extend to you a personal invitation to come and join us at HitSafari and get YOUR own copy of **Traffic Exchange SOS** with YOUR links to each of the recommended resources.

When you give away your personalized copy of **Traffic Exchange SOS** you will be giving people the information that they need to begin their own success plan with Traffic Exchanges and in doing so ...

YOU will be GUARANTEEING YOUR OWN SUCCESS!

"We can have anything we want in life if we're willing to help enough other people get what they want."

– Zig Ziglar

How To Make This Report Your **24/7 "Digital Sales Machine!"**

I hope you enjoyed this free report!

Before you rush off to share this report with your Facebook friends and Twitter followers, let me ask you a question...

Would you like to explode your downlines and your income just by giving this report away?

If so, then all you have to do is rebrand this special report with your affiliate ID's before sharing it with others. That's it. You can then post it to your blog, share it on Facebook and Twitter, or even use it to build your list.

And here's the best part...

Your readers will also receive "giveaway rights" to this report. Which means, if they give it away **without** rebranding it (*and many will*) you'll get their referrals and ultimately their commissions. Example: Let's say "Stephanie" downloads your report, but **does not** rebrand it with her ID. She then shares YOUR branded version with Bill who joins AdKreator, or any of the programs, and upgrades... guess what? **YOU** just got a referral plus got paid...

Cha-ching!

Get excited! Because you're about to unleash your own "digital sales machine" that cranks out downlines and commissions for you 24/7 (*even while you sleep!*)

Here's what to do next...

Step 1: Order Branding Rights from [this link](#)

Step 2: After you place your order, just fill out a short form and you will receive an email with a link to your rebranded report.

Step 3: Start sharing your new report with others and **Watch Your Downlines and Your Income Explode!**
