NOTE: This is a free no obligation report. Feel free to use it, redistribute it, plagiarize it... use it however you see fit. But, before you just write it off, consider doing EXACTLY what it says to do and you WILL get paid!

We are all here for one reason... to make money. Every last person who is spending time and cash on advertising, credits, surfing, clicking and working are all doing so because they would like to get paid.

The MAIN reason why only 3 in every 100 Internet marketers are actually getting paid is because EVERYONE else is trying to make this *complicated*.

If a large group of people would finally come together and work to help each other generate traffic, you could take the simplest, low cost program online and turn it into a gold mine for all involved.

Those of you who are driving yourselves crazy trying to figure out a way to sell the latest and greatest in berry juices, potions and lotions know, all too well, that there's NOTHING easy about making money with those types of programs.

Those of you who are trying to administer and manage your own advertising site, in most cases, are hardly able to make ends meet. Yes, there is a small group of us that are getting the job done, but ask ANY successful admin their secret and they will tell you, "there isn't a secret. It just takes money to invest, diligence and work."

Here's another problem... ask ANY Internet marketer who their target market might be and most of them will not be able to tell you. Most Internet marketers believe that their target market is "Internet marketers". This is only true if you are promoting a service or product that Internet marketers NEED.

All Internet marketers NEED traffic in order to build a mailing list and generate sales/sign ups. In order to generate traffic you must advertise. Unfortunately the majority of the people trying to market online are either promoting a product or service that Internet marketers are already involved with.

So, if there was a way for you to easily reach Internet marketers with a SERVICE that they all need at a price EVERYONE can afford and, in turn, make (yes, I'm not exaggerating here) a five figure income doing so, wouldn't that be better than struggling with what you are doing now?

What if I told you that in the next 10 minutes you can put ALL of the frustration behind you and start marketing a service that ALL Internet marketers need and can ABSOLUTELY afford?

If I could show you the exact formula for success, that is so ridiculously easy, you'll be dumbfounded that you didn't think of it yourself; would you be willing to do EXACTLY what needs to be done in order to get paid?

If your answer is NO, then please close this report, right now and have a blessed day!

Still here? Great!

In the event that you are one of those people who really want to make some real money, get out of debt, pay off some bills and quit worrying about where the next dollar is going to come from, then keep reading.

WARNING: Before you continue I'm going to give you one more chance to bail out here, because what I'm about to share with you is not free. The info and report are free... but you will have to spend **five dollars** to get the ball rolling.

If 5 bucks is beyond your budget, then close this report now.

However, if you are serious, then let's get to work...

The first thing you need to do is know for sure that **YES YOU CAN** make money online. We'll prove it to you!

The second thing we are going to do is get you into the program that we will be selling to our Internet marketing audience. **This program is called AdCashBox.**

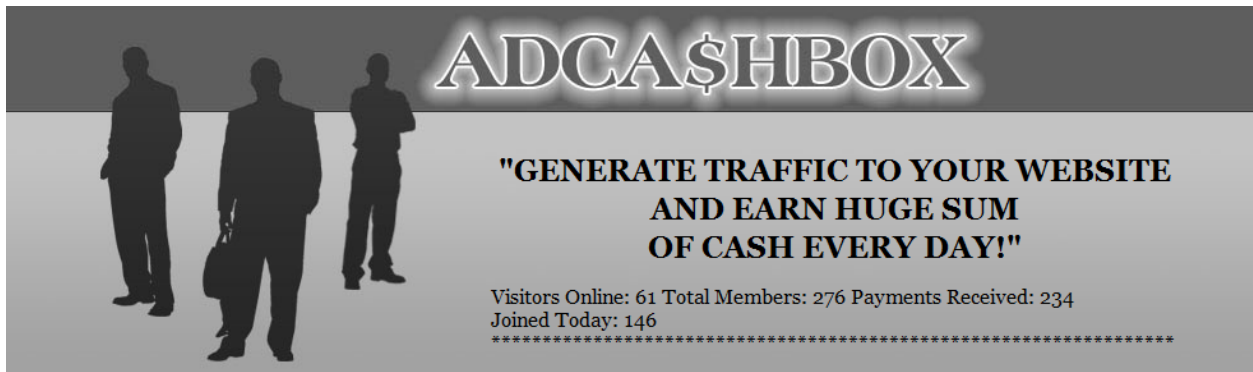

Action Step:

Click the link below, join the program and then pay **your up line the five dollars** to upgrade to level 1 inside the member's area after you join.

Where to find free and low cost e-mail advertising resources:

1) Directories: <http://www.safelistrankings.com> - this is a directory of hundreds of free and low cost safe lists that you can join and send this report to.

You can also use these resources:

[FreeAdMachine](#)

[JackHammer Hits](#)

[Affiliate Jazz](#)

[SuperbTextAdvertising](#)

2.) Advertising Blowout - Access to thousands of free text ad exchanges offering promo codes that open free advertising. Use the following link to join Advertising Blowout

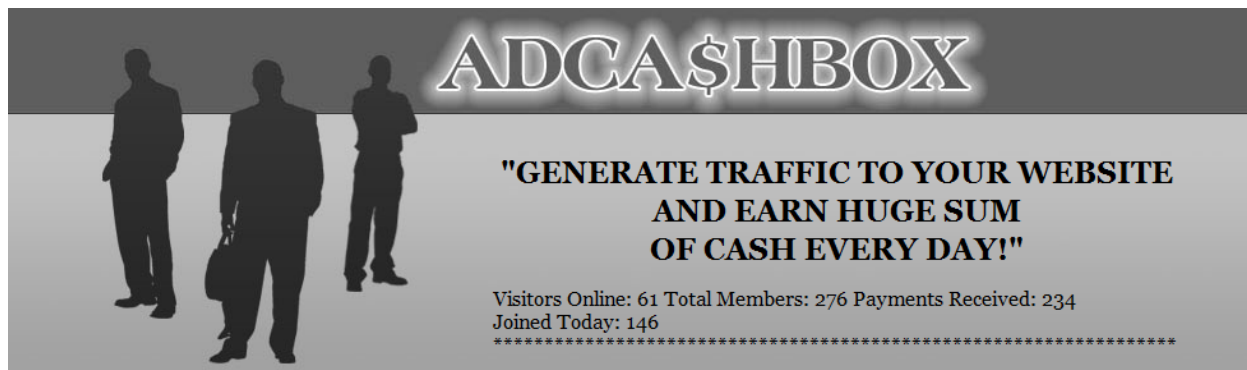

[Click Here to Join Advertising Blowout](#)

Also, make sure to take the upgrade at Advertising Blowout, you'll make more money.

3.) Use the subject lines below as a text ad. Text ads drive traffic, especially on the ad exchanges. Also use this subject link as hot link, traffic link, use it at Live Link Cafe... anywhere you can find to post a link ad.

Turn 5 Bux Into 5 Figures FAST

4.) Here is a free banner that you can use to advertise your AdCashBox affiliate link. It is a 468x60 banner.

<http://www.leadmagnet.net/images/turn.gif>

Use this banner image in conjunction with your AdCashBox referral link.

Inside the AdCashBox members area, you will have access to some other banners as well.

Recommended banner advertising sites include: HitMagik, WebMasterQuest, StartXChange, Trucker Traffic, AdzQuik, any TrafficSurge ad site and Instant Splash. These are tested sites and produce solid click through rates on most banners.

5.) Low cost solo ad resources:

Traffic Surge Solo Ads - 50¢ Solo Ads to 12,000 plus members.

[Click Here to Join TrafficSurge Solo Ads](#)

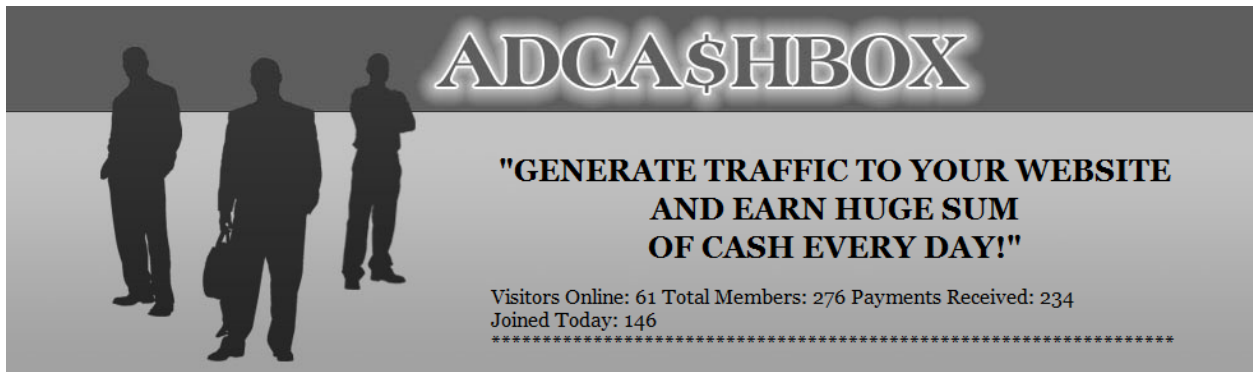

You will find \$2 to \$8 dollar contact solo ads at: AdTroopers Safe List, Active Safe List, FreeBee Safe List, Golden Op Safe List and several others. Make sure to check out the contact solo's on all lists... most are very affordable.

Why send a contact solo ad? Because those ads go out to the contact email address of the safelist members instead of their list email address. Members also receive more credits for clicking on contact solo ads and they are more likely to pay attention to the ad since it was sent to their contact email address.

It's really just this simple.

The key is to keep a constant, steady stream of traffic rolling through your referral page 24/7. While you could set all of this up in conjunction with an auto responder, for list building, the system itself is set up with any auto responder and also builds a list for you. ☺

Watch your e-mail for information, from your up line sponsor, concerning live trainings!
