Hello & Welcome!

You're here because you're looking for a legitimate, realistic and proven way to make a substantial income online. Well, you're in luck, because I'm about to teach you how! I'd like to congratulate you on your decision to get more information!

First off, I will **NOT** lie to you. I don't have to. Because...

The level of training, support, and step-by-step guidance I provide my business partners is unparalleled in this industry...

So I have a lot to talk about. I don't have to fill up this page with hype and empty promises. This is real substance, valuable information that you will be reading, and it has the potential to change your life!

So if you're really **SERIOUS** about making at least \$5,000 per month and eventually \$10,000+ per month online within 2 months from right now, then you're going to have to read this whole letter...

Period.

It just amazes me how some people say they are really serious about building a large income from their own business and then have "no time" or "no interest" in doing the **ONE CRITICAL THING** that they need to do in order to make it happen...

READ... LEARN... GET INFORMED...

Then Take MASSIVE ACTION & Responsibility for your OWN actions and/or inactions.

If you're just looking for a pretty website that promises instant riches without doing anything, then just leave. Really. People like that are a pain to work with and they end up quitting on themselves anyway. If you're just a real person and you know that in order to create a substantial income, it takes SYSTEMS, ACTIONS, INVESTMENTS and joining the RIGHT TEAM... then keep on reading. This will be a refreshing experience for you...

THE NO HYPE ZONE!

REAL FACTS. REAL IDEAS.

**REAL SYSTEMS...
THAT WILL MAKE YOU MONEY.**

ALMOST totally on autopilot.

YES. You still have to learn to do a few cool things to promote your business... things I will show you in great detail within my team training site. **BUT...**

NONE of those simple things will involve cold calling or chasing people around like a lunatic, or bugging people about your "opportunity". Leave all that old school "pitch and chase" sales hack stuff for burned out sales people...

So grab a drink, and let's get started...

**A Stellar Compensation Plan at an Unbelievably
Low Cost In Comparison to Other Similar
Opportunities.**

Infinity Downline capitalizes on the great demand for a lucrative alternative for people who simply cannot afford to join those high priced business opportunities. So rather than paying

\$400, \$1,000 or even \$3,000+ to join a business, Infinity Downline offers a membership level that **ANYONE** can afford.

I can't even begin to tell you how frustrating and limiting it is to have quality prospects for your business...just to find out that 99% of them simply can't afford it.

They like you, they like the business, they want to join...

BUT they can't afford it!
SO FRUSTRATING!!

With Infinity Downline, you don't have that problem. If anyone is serious about building a business of their own to build long-term financial wealth they will absolutely invest \$25 to get started.

Problem solved...simple as that.

In fact, if someone says they can't afford to join Infinity Downline for only \$25 ...guess what?? You don't want to work with them anyway! If someone is trying to start a legitimate business for less than \$25, they are financially desperate and shouldn't even consider starting a business in the first place.

The Products

Infinity Downline's products consist of...

Personal Development Software and E-books...

Along with Products That You Will Use In Every Aspect In Any Business!

Thousands of Dollars Worth of Internet Marketing and

Now, most opportunities out there sell a product that is some "magic juice" or something else that you're probably not really interested in. You're just looking at the business opportunity and how you can make some money, right??

Well, the products you will have access to as a member of Infinity Downline, you can actually use and profit from immediately! Have you ever seen that infomercial where there is a guy trying to sell you his CD's to teach you how to learn e-bay, MS Office, Vista ... you name it? Well, that is all available to you instantly when you become a member.

Plus, you'll learn about almost every online traffic generation method there is in my team training and resource site...

SEO, blogging, article marketing, video marketing, ezine marketing, pay-per-click, social networking, etc. and how to turn that traffic into \$\$\$\$.

You'll also have access to anything you'll need to know about:

list building, email marketing, ad tracking, affiliate marketing, viral marketing, sales letters, product creation, etc. etc.

You'll have your own customized websites up and running in less than an hour.

I get excited just writing about this stuff!

The funny thing is that we haven't even touched upon the real magic yet...

The Compensation Plan

The traditional 'network marketing' model or '**MLM**' is outdated and it would take at least 3 years of full time work to start seeing any serious residual income. And that's IF you are good...really good!

The Infinity Downline compensation plan pays 100% upfront commissions! Compare that to keeping a tiny 20% or even 10% like many **MLM** companies. So you would think there would be an admin fee right?

NO! There is no admin fee ever!

So, you might be asking, "How does Infinity Downline make a profit then?"

Great Question :-)

Infinity Downline has been in the online business for almost 12 years. They run almost 100 sites, most of which market services and tools for online marketers. They'd have to spend 10-20K to market their products in the traditional way anyway. So, they got smart and decided that if they already own the tools and services to put together a site like Infinity Downline, why not set up an environment where the affiliate members viral market and give them all the commission for doing so? They then have their products in the back office which will help them market whatever they want, and they get what they want which is... **EXPOSURE.**

It's a perfect win-win scenario.

It is a true 100% net member-to-member payout with no funny stuff. They just want exposure to other services they have. There is No obligation to buy their products though. Don't worry, they don't hit you over the head with up sells, or anything like it. In fact, I have been a member of Infinity Downline for some time now and I can't remember once when they tried to get me to buy anything from them. They give you a great product and system, and 100% commissions to their members, and in turn they get exposure. It's a proven business model that makes perfect business sense.

No need to work your tail off for 3+ years... or 40 years doing it the belly-to-belly way.

Make 100% upfront commissions now AND big passive residual income as quick as you can refer someone to the same system!

Let's take a closer look at the Compensation Plan ...

Infinity Downline Can Make You Insane Amounts Of Money!

-Break even with one referral. You get the \$25 back instantly with your first person.

-Instant pay! All members pay each other directly, and instantly. No going through the company.

-Compounding income via the reverse 2 Up.

-100% pure net pay with incredible products

-Residual income by getting paid \$25 every 30 days from all members on your pay-line.

Did you catch that last bullet point? Residual income. That's the key. No more do you have to work and work and work each month just to start all over again. How do you think that company's like Time Warner, Verizon, AT&T and all the other companies that make a fortune do it? They bill you every month. Residual income. You build it once and keep adding to it.

Infinity Downline realized this years ago and they have set the ID system up for YOU to capitalize on it. They made it available for the masses. Imagine getting 20 members a month. That's \$500 this month.

Then get 20 the second month. That's \$500 right?

WRONG!

That's \$1000 this month. Don't forget about the first month. Then build some more. Get 20 more during the third month. That's \$500 right.

Ah Ha! I can't trick you. Now you are getting it.

It's \$1500! And your business continues to grow!

How do you get paid?

Your payments are made directly to you through a simple merchant account and/or PayPal. Either way, you'll see the money in your account the instant the sale is made! Waiting weeks and or months for your commission check is a thing of the past, thanks to Infinity Downline.

Setting up your merchant account is as simple as could be. After your merchant account is created you simply plug your e-mail address into the back office in Infinity Downline and you're done!

So what exactly do you get for \$25 besides a proven system along with my personal step-by-step guidance to earn \$10,000+/month?

Quite A Deal, Isn't It?

Of Course It Is! In Fact, This Is The Best Opportunity I've Ever Seen In The Industry. Out Of Thousands Of Opportunities, I Chose This One Because It Stood Out Like A Shining Star In So Many Ways...

Seems Like They Provide Everything You Would Need To Succeed With Infinity Downline ...**RIGHT??**

You may be surprised, but the answer is...

WRONG!!!

I cannot stand hearing people say that all you need to do is join this business and they will give you everything you need to succeed. I Can't Stand Hearing That!!

If you **EVER** hear that from **ANYONE**, run away or hang up on them as fast as you can...and call them a scam artist right before you do! :)

When you join a business opportunity, you will be instructed to market your affiliate link. Well guess what? That's what they tell every single affiliate to do. So when you have a bunch of affiliates marketing the same exact website...

WHY WOULD ANYONE JOIN YOU?

You haven't differentiated yourself from the competition. Although Infinity Downline is the most lucrative business opportunity I've seen for the price, if you market the company-provided replicated website, you're not giving your prospects **ANY** reason to join you. You are simply a replicated website, and for all they know, there isn't even a real person behind the site you're working so hard to promote.

Do you think Infinity Downline provided me with the site you went downloaded this free report from?... **HINT HINT**

First of all, you need to develop specific skills to become successful in this industry. No business opportunity can magically give you these skills. They can provide you with resources, support, and a very compelling opportunity to market...but not the skills.

These skills can be developed by educating yourself and learning through trial and error. But a much quicker way to pick up the skills that lead to success in any industry is to learn from an experienced mentor and team of leaders that already have those skills, and already have the training in place for you to develop those **EXACT** skills...so you can start enjoying the **EXACT** same results in excess of \$10,000 per month as well.

"It Is For That Reason That I Have Found The #1 Rated, Exclusive 'Infinity Downline Training and Resource Site'

Complete With All Of The Tools, Training, and Video Tutorials Detailing Exact Step-By-Step Instructions On How To Grow Your Wealth Systematically With Infinity Downline!"

I found that the majority of people that fail online is due to lack of knowing how to drive quality traffic to a website and lack the ability to convert traffic into quality prospects and then sales.

There are 2 pieces to the puzzle here...

- 1) Traffic
- 2) Conversion

If one piece is missing, **YOU WILL FAIL!** (sorry to be blunt but you need the truth and I'm here to tell you how it is).

Without traffic, no one will see your sites, which leads to ... obviously, not closing any sales.

Without conversion, you could have all the traffic in the world, but none of that traffic will turn into a sale.

In order to convert your traffic into sales for you on autopilot, you need a professionally crafted marketing system in place to funnel your traffic through. This marketing system **CANNOT**, I repeat **CANNOT** be a company-provided replicated website because it doesn't give your prospects any reason to join **YOU** over everyone else marketing the same "system".

Instead your marketing system must be customized to you, giving your prospects compelling reasons to join you in your Infinity Downline business. **THAT** is the secret to converting your traffic into sales like clockwork!

But there's still a problem...

Most people don't have the skills to set up their own marketing system and drive highly targeted traffic to their system.

But I do...

I have **ALLLL** you'll ever need just sitting there waiting for you within My Exclusive Infinity Downline Training And Resource Site... How You Can Create Your **OWN** Customizable Marketing System along with Extensive Training on how to drive **MASSIVE** amounts of highly targeted traffic through your own marketing system, not just cookie cutter replicated sites that plain and simple **DO NOT WORK!**

No one, and I mean **NO ONE** in Infinity Downline has gone to the lengths that I have to ensure your success. I did all of the hard work for you so that you can get your cash generating machine up and running in no time.

You'll Learn...

1. How to drive massive amounts of high quality traffic to your website.
2. How to convert that traffic into high quality prospects.
3. How to convert those prospects into new team members.
4. How to train these new people to use the same system to duplicate and create exponential growth in their business.
5. How to create your own customized squeeze pages.
6. How to build your list and make money from your list even if your prospect doesn't join you in Infinity Downline.

And by plugging into **THE EXCLUSIVE INFINITY DOWNLINE TRAINING SITE**, You will create **SIGNIFICANT** cash flow with almost complete automation and leverage.

And best of all...

Interested Prospects Chase Us To Join!!

Imagine waking up to 5, 10, 25 and eventually 50 new qualified prospects each and every day...hot and eager to join your Infinity Downline business.

All you do is answer a few phone calls and return a few emails from your prospects just to get their final questions answered before they sign up with you... but **NEVER** calling or emailing (spamming) your prospects first.

And absolutely **NEVER EVER** convincing or talking anyone into anything. Just nice casual friendly conversations. It really is a process of just making new friends and it's **FUN...**

and then...

Imagine checking your bank account at the end of the month to see there's been well over \$10,000 deposited during that month just from Infinity Downline. Then, all of a sudden you realize that you're on track to make a **6-FIGURE ANNUAL INCOME** just having fun...despite this global recession!

Sound too good to be true???

Well I can tell you, that is exactly what our Team experiences each and **EVERY** month with the Infinity Downline business...and the same goes for many of my teammates that use my Infinity Downline Training and Resource Site.

But it hasn't always been this easy, let me tell ya...

I wasted tens of thousands of dollars marketing company-provided replicated websites...which **NEVER** worked! Wasted thousands on buying the wrong kind of leads...which **NEVER** work! I tried just about anything you could imagine.

I went through miserable failures, continuous rejection, humiliation, embarrassment and downright **PAIN**. I even got kicked out of the Target parking lot by the guy picking up the trash – all because I was putting flyers on cars for my business (another hair-brained tactic forced upon me by my previous upline...)

But I believed in myself and promised myself I would absolutely **NEVER** give up no matter what. Just like anything else in life that creates long-term substantial success, I put in my dues **BIG** time! My husband thought I was crazy but my persistence finally paid off.

It felt like the time would never come, but I finally cracked the code and learned the mechanics of creating such a powerful and automated system that attracts prospects to me, eager to join ME in my business.

And now you can skip right over that long and painful learning curve I went through and experience the same results my team members and I are in a matter of weeks...

Of course you'll have to put in some time and effort to set up, grow and automate your Infinity Downline business, but...

Starting your business with a proper *system* will cut years off your learning curve and make the difference between success and failure.

Doesn't this sound simple?

That's the **SECRET KEY!**

Most people make things too **COMPLICATED** and that leads to inaction.

**SIMPLE WORKS... SYSTEMS WORK...
TEAMWORK WORKS!**

There are so many people who tell me every day that they're team does not provide any support, no training, no ad copy, no resources at all... and they're just stuck. And they want me to help. Literally Countless Infinity Downline members have asked if they can switch to my team...

And because of Infinity Downline company policy, I have to tell them "No, sorry...you're screwed." Haha well... not those exact words but ya know what I mean.

Don't get stuck like that...

Join our team!

How To Get Laser Beam Targeted Traffic to Your Website Absolutely FREE Using SIMPLE Online Strategies – Video Marketing!

If you love getting laser beam traffic... and lots of it without spending a dime, this is for you.

One of the best ways of getting traffic if you're on a shoe string budget (or even if you're working with a substantial marketing budget) is to harness the power of video marketing...

It goes like this...

There are two ways to can do video that I will discuss here. You can do a 'voice over' and that's where you have a still image displaying or a slide show presentation going, where you are speaking in the background and no one ever actually sees YOU. This way, you don't have to worry about having a "bad hair day". :-) The other method is a 'live video' and that's where you are on center stage and star of your own ad campaign!

Voice Over: This is where you can record your computer screen and your voice at the same time and upload the resulting video to the online service and you can even upload the videos to YouTube.

Live Video: To do this, you will need a web cam or a video camcorder. You can find these at WalMart for about \$25 to \$40. You don't need the fancy one - a very inexpensive one will do. Any web cam you buy needs to be able to allow you to save the videos in a format allowed on YouTube (avi, dvd, vob, flv, mpeg, ipod, mp3, ac3, svcd, mp4, wmv). My favorite is WMV because the recording size is smaller than the others and I've never had a problem with it at all on any video site.

The steps below discuss "Voice Over" video recording. The same principles apply if you are doing a "live video" as well.

Let's get started!

1. Grab a desktop video recording software at camstudio.org – it's a watered down version of Camtasia and doesn't cost you a dime – it's also COMPLETELY sufficient for this simple system I'm sharing right now. There are others out there you can use if you don't like camstudio.org - such as ScreenToaster.com or JingProject.com.

Both are free. I use ScreenToaster.com and JingProject.com - which one I use depends on the length of my videos. JingProject.com limits you to 5 minutes.

2. Create a 2-5 minute video using Powerpoint or create a slide presentation using Google Docs (you can setup a free account at docs.google.com if you don't have Powerpoint or any other slide show software). Keep it SUPER simple... don't have it professionally done or anything – keep it amateur and remember, you're looking for traffic. Nothing fancy is necessary here to make this work effectively.

3. Use Google's keyword research tool (it's free) – all you need now is an Adwords account (again, free) that you can setup in 5 minutes at adwords.google.com.

4. This step is key – **you're looking for keyword phrases that have at least 1,000 searches per month and have less than 40,000 competing sites.** To discover how many competing sites you're going up against, take a keyword phrase that you're researching to google.com – type it in the search box, using parenthesis. This will tell you how many other sites are using that phrase. The smaller the number, the easier it is to get ranked well on the search engines and get placed on page one (of organic results).

5. Once you've isolated a keyword phrase and you've recorded a short video using the desktop video recording software, now we need to distribute the video to a few video sharing websites. To keep things simple, we'll submit the video to metacafe.com, youtube.com and dailymotion.com – there are lots of others you can submit to as well, but it's not necessary at this point to list them all... you're looking for organic search traffic with the search engines and just focusing on these 3 will allow that to happen.

6. When you submit the videos at each location make sure that keyword phrase you've discovered and met the parameters is mentioned in the title of the video (once) and in the description twice.

7. Make sure you tell them in the video to go to <yourbusinesswebsite>.com and promise to give them something to create the urgency for them to head over to that data capture page (in exchange for them submitting their information (the lead) give them a report, content filled video, some sort of "cheat sheet" that relates to your niche... but most importantly, give them sweet content that helps them!).

Example... let's assume a big benefit for one of your products is "weight loss" and you're going to optimize it for the keyword phrase "safe effective weight loss".

Your video title might be "Safe Effective Weight Loss – 3 Easy Steps".

The description of the video might read, "Safe effective weight loss technique. Short video discloses 3 safe and effective weight loss techniques".

You get the idea – this is just an example.

So the objective here is when someone goes to do a search at any of the big search engines (yahoo, bing, google, live – or search their video results, depending on the

search engine) and they type in the keyword you've optimized the video for, your video will show up in the results for that specific search.

Wait a day or two then type in the keyword phrase you used over at google.com and find your video!

That's it!

Crazy simple... yet super effective technique.

The cool thing here is that you can "ramp up" with relative ease. Don't just do this for one or two keyword phrases... you can knock out and submit each video in less than 20 minutes. Block out a few hours and have some fun.

Not only will this get you targeted traffic, but you're getting quality leads without spending a dime. And it's crazy fun too!

Using video marketing is a GREAT way to get a lot of attention to your business. *The most obvious choice is YouTube, but there are a lot more sites you can upload a video and have it seen all over the net.*

After you've recorded some videos, you'll need to upload them to the video sites listed below. Make sure that even if you upload the same video to all the video sites that **none of them have the same title, description or keywords.**

Record a video and upload it to the sites above talking about what your business offers them and what the benefits of the program are to the person watching the video and **ALWAYS include a link to your capture page so they can opt-in to learn more.**

These strategies can be used to build any business, by the way.
